Projek

Redesign IT Del Campus Website

Redesigning a IT Del campus website In the course of "Interaksi Manusia Komputer", involves revamping the digital presence of an educational institution to provide an improved user experience. It's a collaborative effort to create a modern, user-centric digital hub that serves the needs of students, faculty, staff, and prospective students while reflecting the institution's brand and values.

Pendidikan

Redesign IT Del Campus Website

Redesigning a IT Del library website In the course of "Interaksi Manusia Komputer" is a comprehensive process focused on enhancing the user experience. Continuous feedback and iterative improvements are essential to maintaining a dynamic and user-friendly online platform that serves the library's diverse user base effectively.

Experience

Member • Student Executive Board (BEM)

Member of the Student Executive Board (BEM) in the Department of Community Relations and Services

Okt 2022 - Mar 2023

Student Trainee • Dicoding

I've embarked on the journey to become a front-end web developer through Dicoding Indonesia's courses. With great enthusiasm, I'm diving into the intricacies of web programming, eager to grasp the foundations of HTML, CSS, and JavaScript, as well as the skills needed to craft captivating and responsive user interfaces.

Aug 2023 - Des 2023

Student Trainee • MySkills

MySkills has revolutionized my educational journey, providing me with the tools and resources to excel in both web development and English speaking.
